To Whom it May Concern:

I write this recommendation letter for Cesar Costa, in support to his application for the scholarship program from DAAD.

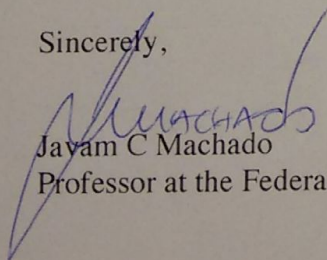

It is my great pleasure to write this letter of recommendation. I have had the satisfaction of knowing Cesar Costa professional development over the past year. I can state that he is a very intelligent and motivated person, committed with the activities he is assigned to. He demonstrates an over the average ability on research and proposal of creative solutions. This ability was shown in many cases when facing different practical problems during his activities as software developer.

Cesar Costa started working full time at the laboratory I manage during the last period of his graduation. Since the beginning he has shown confidence of being able to take responsibilities, and on what concerns me, he handled them effortlessly, carrying out his academic and professional activities with outstanding performance. After he graduated, Cesar Costa continued working as a former developer on our lab, where he constantly demonstrates interest on continuing his academic development.

Cesar Costa was one of my students in an undergraduate course on Database Management Systems. I can testify about his fulfillment on the execution of his activities. His work in class was consistently completed on time, and he participated in class with valuable contributions.

His performance at work and as a student has shown that he is fully capable of fulfilling the requirements of your program, and I believe he is highly qualified of carrying a graduation program abroad, standing as well on his past experiences at Soongsil University in South Korea, as a exchange student, during the time of his graduation. His excellent English ability has been affirmed repeatedly through the direct communication with our partners and the writing of necessary documentation. This opportunity will allow him to better develop his career plans and solidify his potential.

Sincerely,

Jayam C Machado

Professor at the Federal University of Ceara
