Personal Information

Name: CECÍLIA LIS COSTA Enrollment no.: 309311
Date of Birth: 29 January 1988 Place of Birth: FORTALEZA/CE
ID No.: 2006010062246 Issuing Agency: SSPDS Nationality: Brazilian

Program Information

Program: BACHELOR'S DEGREE IN COMPUTING
Modality: CLASSROOM-BASED (IN-PERSON) INSTRUCTION
Degree Level: UNDERGRADUATE PROGRAM Admission Procedure: SELECTION PROCESS (VESTIBULAR)

Student Information

Status: Program completed Academic Performance Index (General): 7.152
Initial Academic Year/Term: 2009.1 Deadline for Program Completion: 2014.2 Academic Performance Index (Individual): 6.8692
Current Term: 12th Commencement Held On: 15 January 2015 Date of Program Completion: 15 January 2015
Final Academic Year/Term: 2014.2 Reason for Exit: PROGRAM COMPLETION
Undergraduate Thesis:

Completed and Ongoing Courses/Activities

Academic Year/Term		Course Description	Contact Hours	Attendance %	Grade	Status
2009.1						
2009.1		CB0534 DIFFERENTIAL AND INTEGRAL CALCULUS I	96.00	100.00	7.0	Pass
2009.1		CB0537 LINEAR ALGEBRA I	48.00	100.00	9.1	Pass
2009.1		CB0661 DISCRETE MATHEMATICS	96.00	100.00	5.3	Pass
2009.1		CK0108 FUNDAMENTALS OF PROGRAMMING	64.00	100.00	7.8	Pass

Explanatory Notes

Degree Terminology

There are two main types of undergraduate (first-level) degrees in Brazilian higher education:

Bacharelados (Bachelor's Degrees) are programs which enable graduates for broad-ranging work and research in a certain field of knowledge such as medicine, social science, advertising, engineering, dentistry, and many others.

Licenciaturas (Licentiate Degrees) are education-oriented programs with an emphasis on enabling individuals for work as primary and/or secondary school teachers in a given subject area (science, mathematics, physics, languages, etc.).

Additionally, UFC also offers shorter, professionally oriented programs known as Cursos Tecnólogos (Technologist Degrees), which provide specialized training for swift entry into the job market (e.g.: Information Technology, Industrial Processes, Tourism, and others).

Upon earning an undergraduate degree, students are eligible for entry into graduate education (also known as postgraduate education).

In Brazil, *stricto sensu* (Latin for "in the narrow sense") is a designation used to refer to graduate programs encompassing master's and doctoral programs, as opposed to *lato sensu* degrees (Latin for "in the broad sense"), which are shorter, less complex graduate-level programs commonly referred to as *especializações* (specialization programs).

Credit

Contact hours are the primary device for assessing the fulfillment of credit requirements in Brazilian universities. At UFC, one credit comprises 16 contact hours, each of which in turn corresponds to 50 minutes of classroom instruction or activities deemed equivalent thereto.

Attendance

All undergraduate students are expected to attend a satisfactory number of sessions per course: no less than 75% of all in-person classes or activities deemed equivalent thereto.

For activities such as final undergraduate projects or theses, supervised internships, clinical clerkships and other forms of training for real-life work situations, students must maintain an attendance record of at least 90% of the planned workload.

In the case of a failure for excessive absences, the student will receive a final average grade of 0.0.

Failing the same course due to excessive absences more than once, or four course failures within the overall program owing to insufficient attendance, may cause the student to forfeit his/her enrollment at UFC for the duration of the following semester.

Reinstatement is feasible by way of signing a letter of intent provided by the coordinating office of the student's program. Signing this letter is therefore tantamount to acknowledging that one more failure for insufficient attendance will lead to the definitive termination of the student's enrollment at UFC.

Grading

In tandem with other higher learning institutions in Brazil, UFC's grading policy addresses undergraduate performance on a per-course basis.

Each course is graded on a scale of 0.0 to 10.0, with a minimum final average grade of 7.0 being indicative of satisfactory work.

Please note that numerical grades may not always be assigned for activities like internships and undergraduate theses. In such cases, student performance may be assessed in terms of a "pass" or "fail" grade.

If at the end of the term a student has not earned the minimum passing average grade of 7.0 but managed to achieve an average grade equal to or higher than 4.0, he/she is eligible for a makeup examination after which a new minimum average grade of 5.0 shall be considered sufficient for completion of the course.

A final average grade lower than 4.0 is in all respects equivalent to definitively failing the said course. In the case of a failure for excessive absences, the student will receive a final average grade of 0.0.

For further information, please contact documents@prointer.ufc.br.

Extracurricular Activities

In addition to course assignments, internships and theses, students are required to take part in extracurricular activities for successful completion of a program of study.

Such activities include, without limitation, participating in research, teaching and outreach projects, organizing artistic, cultural and/or sporting events, as well as working at voluntary internships and student unions.

Academic Performance Index

A student's Academic Performance Index (Índice de Rendimento Acadêmico – IRA) is calculated upon the completion of each term.

It factors in the final course grades, each course's contact hour total, the academic term in which the course was completed vis-à-vis the term in which it is expected to be taken, and the (non-)occurrence of interruptions (leaves of absence and/or full program withdrawals).

Academic efficacy is documented by means of the following indices:

- a) the individual IRA (indicative of and calculated based on a given student's performance) and;
- b) the general IRA (an index that is calculated within the bounds of a given undergraduate program, taking into account the performances of every student in that program).
